MS Teams:

[General | CS-E4660 Advanced Topics in Software Systems-2026](#)

Lectures, tutorials and projects

- Lectures and tutorials
 - Key concepts about principles, models, methods, and technologies
 - Practical, concrete tools and hands-on discussions
- Projects done by students
 - Discussion, presentation, development and demonstration of your understanding via a concrete project work

AI assistance

No GenAI/AI writing assistance for study logs writing

Your course Git project must clarify

- if using GenAI for generating ideas
- if using GenAI for creating code
- if using GenAI for reporting/documentation

Assessment

- Via study logs and course project
- Pass/fail
- Pass:
 - all study logs: must be passed
 - demonstration of your thoughts about selected readings and course topics
 - course project: must be passed
 - public git project
 - participation discussion and project outcome (code, demonstration, report)
 - you setup and manage your own git

A!

Kiitos
